

VISN 8 Pharmacy Certification

VISN 8 Region – Florida & Caribbean

POC – Dr. Kourtney LaPlant, VISN 8 Clinical Pharmacy Manager
Phn: 352-872-3672 Email: kourtney.laplant@va.gov

Located in beautiful St. Petersburg, Florida, the VA Sunshine Healthcare Network (VISN 8) is the nation's largest system of hospitals and clinics serving a population of more than 1.5 million Veterans in a vast 64,153 square mile area spread across 79 counties in Florida, South Georgia, Puerto Rico and the U.S. Virgin Islands.

Winergy was awarded a GSA contract (one year +4) to provide all pharmacy testing, repair and certification services for the 8 VA medical centers in the VISN. This includes semiannual testing of the primary engineering controls (PECs), the secondary engineering controls (the rooms and supply HEPA filters), and monthly USP<797> environmental sampling and personnel testing. Additionally, Winergy conducts surface sampling for chemotherapy drugs on a semiannual basis.

The facilities within the VISN each have unique pharmacies and varied levels of compounding equipment. Prior to this contract, multiple vendors were providing these services with varying levels of expertise and capabilities. The VISN contract was issued so that a single vendor would provide a standardized service to all the facilities and introduce uniformity into the process. All work is completed with Winergy full-time staff and no subcontractors.
